LITIGATION FINANCING

EMPOWERING LAW FIRMS WITH FLEXIBLE FINANCING SOLUTIONS FROM \$250,000–\$25 MILLION

	OAK.SUPPORT	Traditional Banks
RATES & FEES	Because our solutions are bespoke to each individual law firm, our rates are amongst the lowest in the private commercial lending industry. Our fees only consist of a simple closing fee.	Banks will always have the lowest rates because they get their money from the Federal Reserve at 0%. Banks can also charge numerous fees such as pre-payment penalties, draw down fees, etc.
VALUATION OF CONTINGENT FEE CASE INVENTORY	As the most important aspect of underwriting a law firm's portfolio of cases, our underwriting attorneys have decades of law firm portfolio valuation experience.	Because traditional banks are financial institutions that are governed by federal regulators, they rarely have any expertise in the valuation of contingent fee portfolios.
APPROACH TO FINANCING	OAK.SUPPORT listens to and gathers critical information from our law firm clients to create a customized solution for each client inclusive of Lines of Credit, Portfolio Funding, Growth Capital and M&A financing. We offer flexible credit lines ranging from \$250,000 to \$25 million.	Traditional banks typically offer working lines of credit as their only financial solution for contingency fee-based law firms where the law firm must abide by the bank's stringent lending terms.
COMMITMENT	OAK.SUPPORT exists because of our deep relationships with our law firm clients where our 100% commitment is to the law firm by providing the best solution for their needs.	Banks have always been beholden to their boss—the federal government via the Federal Reserve. They have very little flexibility due to their overwatch from federal regulators.

SIESTA NATURAL MEDICINE

Innovative Care for Personal Injury & Regenerative Healing

Serving personal injury patients in Tucson, our clinic coordinates first-line care for MVA-related injuries. As a naturopathic physician-led practice, we specialize in regenerative therapies designed to reduce pain, restore function, and support the body's natural healing process.

REGENERATIVE INJECTION THERAPIES

Prolotherapy

Strengthens connective tissue with dextrose, vitamins, and anesthetic to improve function, decrease pain, and prevent osteoarthritis.

Platelet Rich Plasma (PRP)

Concentrated platelets and growth factors from your own blood to repair injured tendons, ligaments, and joints.

Perineural Therapy

Low-dose dextrose injections that calm inflamed nerves and reduce chronic pain.

Biologics

Amniotic and umbilical tissue to reduce inflammation and encourage cartilage repair.

Our Approach

Guided by the Six Principles of Naturopathic Medicine, we:

- Do No Harm
- Harness the Healing Power of Nature
- Identify & Treat the Root Cause
- Treat the Whole Person
- Act as Physician-Teachers
- Focus on Prevention
